

Dear All,

In light of the growing outbreak of COVID-19, we wish to inform you that our offices will operate based on a combination of in-house and remote working plan, permitting our staff to alternate working from home to minimise the number of people in the same physical space.

In addition, all our business trips have been suspended for such time as the national guidelines suggest, while our daily communication with associates and clients shall be conducted via various tools and applications of telecommunication.

We continue to be available to you at all times as usual.

We All Stand Together!
